Professional Summary

Computer Science student with hands-on experience designing, developing, and deploying full-stack web applications using Java, Spring Boot, MySQL, REST APIs, JavaScript, Bootstrap, Git, GitHub, Docker, and Railway. Built and deployed a public-facing FIFA World Cup 2026 Predictor demonstrating backend development, authentication, database design, responsive UI, and cloud deployment. Seeking a remote Software Engineer, Java Developer, or Backend Developer position.

Technical Skills

Languages: Java, C++, JavaScript, SQL, HTML5, CSS3

Frameworks & Technologies: Spring Boot, REST APIs, Bootstrap, MySQL, Git, GitHub, Docker, Railway, Jira **Software Engineering:** Object-Oriented Programming, Agile Methodology, Scrum, Backend Development, Database Design, Algorithms, Networking

Featured Projects

FIFA World Cup 2026 Predictor

- Built and deployed a full-stack prediction platform using Java, Spring Boot, MySQL, REST APIs, JavaScript, Bootstrap, GitHub, and Railway.
- Implemented authentication, prediction management, leaderboards, profiles, responsive UI, and email notifications.
- Designed relational MySQL database tables for users, predictions, and teams.
- Live Demo: <https://worldcuppredictor26-production.up.railway.app>

EnrollMate – Backend functionality using C++, MySQL, REST APIs, Docker, GitHub, and Jira.

Ashley Madison Cybersecurity Simulation – Collaborated on SQL analysis, database design, cybersecurity research, and technical documentation.

Leadership & Campus Involvement

Co-Founder & Event Chair | ColorStack Chapter – California State University, Los Angeles

- Co-founded the official ColorStack chapter at Cal State LA.
- Lead planning and execution of technical workshops, networking events, and career development sessions.
- Coordinate with faculty, student leaders, and industry professionals to strengthen the campus technology community.

Leadership Experience

Resident Care Coordinator | Ivy Park at Santa Monica

- Coordinate daily operations, staffing continuity, onboarding, training, and documentation.
- Maintain audit-ready records and improve workflow efficiency.

Resident Services Supervisor | Savant of Santa Monica

- Supervised scheduling, staff training, documentation, and operational compliance.

Education

California State University, Los Angeles — B.S. Computer Science (Expected Dec 2026)

El Camino College — A.S. Computer Science (May 2024)
